

Aztek Trip "Wasted Time"

Visit "[Wasted Time](#)" on MotoLyrics.com

Feeling... feeling alone, sometimes it hurts
Just a little, let the pain take you away
Quiet violence smothers like water
Then it burns just like the right but I...

I know that you know
That I know that you know
That I know that we know, but I know it

I know that you know
That I know that you know
That I know that we know yeah but I know it

All this time, all this waste,
All this time wasted for nothing
Memories, photographs, pictures
Taken long ago that I don't know

Feeling... feeling confused, alone at time
But at time I don't mind it at all
Helpless sometimes
You'd never know if it stared at you
Right in the face, right into place
Quiet desperation
Keep in mind the time that flies
The time that passes by but I...

I know that you know
That I know that you know
That I know that we know yeah but I know it

Wasted...wasted...wasted time
Wasted...wasted...wasted time
