"All About Love"

Visit "[All About Love](#)" on MotoLyrics.com

It's all about love.
You turned my world around and you brightened up my
day.
When I'm feeling sad and blue all I need in my life is
you.
I might not be the best, but I'll always try.
We each have to take a chance if we're gonna make it
in this life.

It's all about love.

Day seems like it's going fast and nights seem shorter,
too.
It doesn't matter how long it lasts, just as long as I'm
with you.
Sometimes when I'm all alone and I feel like I can't go
on,
I know deep inside my heart, there's a better place for
me.

It's all about love.

I can't explain how I feel cuz I never felt like this before.
Feels like I'm floating on air. Tell me what's happening
to me
