Cold stare and a crackling sun.
On lifeless trees our will is hung.
Passion is grand. Eager ears have heard,

Denial at hand, romantic absurd. Thru blind caverns we
run. Crawl with the rats yet trust not but one!
Again and again, a shocking reminder. Face to face,
we've never been blinder. Silent breath in robotic
nerves. The final truth of all

Things is that there is no final truth.
Truth is what's transitory, it's human life that is real.
Passing spheres overhead, does not bring rest.

Forgotten tears to dread, a lingering pest! Thoughtful
creatures, they scurry around while bound shackled to
the flesh. Speak your mind, move nothing but chaos,
within the brain, fabricating a purpose for your death.
Life it is nothing, simple, hideous nothing. We've got to
remain logical, there's no choice, it's that or the end.
Clarity thru Apathy.
