### Verse1

Freedom, from the chains that bind  
Freedom, is a state of mind

### Verse2

Freedom, like a child it cries  
Freedom, like a bird it flies

### Bridge1

Change is rushing in  
Like the tide, a cleansing wind,  
Like the river to the sea  
To rewrite our history...

### Verse3

Freedom, can't be bought or sold  
Freedom, must be free for all

### Bridge2

Peace lies just ahead,  
Not a concept in our head  
It will come once we believe,  
It's a goal we can achieve

### Chorus1

We all know what to look for  
The signs are there to follow  
We all rise up to fight for  
The ending of our sorrows

We must not stop believing  
Of a new way of living  
We must continue dreaming  
Around the bend is light...

### Breakout

The price to pay is knowledge for everyone  
No other way can mankind survive  
The road to peace is inside your heart and soul  
Just wish it into your life

Because the way to freedom is just ahead  
No other way can we find the light  
To shed this darkness we have been living in  
Just wish it into your life

Chorus2 & Fade...

We all know what to look for  
The signs are there to follow  
We all rise up to fight for  
The ending of our sorrows

We must not stop believing  
Of a new way of living  
We must continue dreaming  
So we can start forgiving

Ah, ahah, aha, aha, aha

Ah, ahah, aha, aha, aha
