The oceans calling out your name  
And don't you hesitate  
This could be your only  
Escape

I'm already dead  
I walk this place I used to love  
Unable to fucking rest  
I'd bury you alive  
Underground to hide what it meant

A darkened soul  
Is all that's left  
And whispers of a past  
Full of regret  
I just want to spit in your face  
Before they shut the casket

And don't you know  
Your eyes they shine like stars  
And maybe that's the reason I had to run so far  
And if life dealt us another hand  
Would you take another chance  
Would you risk  
Another broken romance

Your not the one I'll carry on  
And soon you'll see  
That the devil lurks inside of me

I wanna see your  
Body hit the floor  
Scream one more time for me  
My gorgeous little whore

Your on own  
It's time to settle the fucking score

I hope it kills you to  
Hear my voice  
I hope it brings you to  
Your knees when you

Think of me
