I'm mad gonna sell it on a t-shirt,  
I'm living out a borrowed age.  
I got God, I got the medication,  
I got enough make it all go away.  
Got blood on the mirror boy,  
Got blood on the empty page.  
Got blood on the mirror boy,  
Got blood on the empty page.  
I got God, I got the imitation.  
I got the will make it all okay.  
It's all wrong wrong intention,  
I got mine from an empty faith.

I'm not proud, too proud of it.  
I ain't proud, too proud of it.  
I'm not proud, too proud of it.  
But I'm fine, just fine with it.

It's not enough to carry us over,  
It's not enough make it all go away.  
It's not enough to keep me from believing,  
It's not enough make it all ok.  
I'm mad i don't wanna be right.  
Let it outright take you away.

Get it, I got it on the run and I'll sell it with you.  
Get it, I got it on the run and I'll sell it with you.  
One more taste is all it takes then you bled me gone.

I'm death at the lights hesitations,  
I got a right just to give it away.  
I got a mean reputation,  
I got blood on my stolen fate.  
I got a liars salavation,  
I got the dope and the black tar veins.

I'm not proud, too proud of it.  
I ain't proud, too proud of it.  
I'm not proud, too proud of it.  
But I'm fine, just fine with it.

It's not enough to carry us over,  
It's not enough make it all go away.  
It's not enough to keep me from believing,  
It's not enough make it all ok.  
I'm mad I don't wanna be right.  
Let it outright take you away.  
I'm mad I don't wanna be right,  
It's not enough make it all ok.

Get it, I got it on the run and I'll sell it with you.  
Get it, I got it on the run and I'll sell it with you.  
One more taste is all it takes, then I'm gone.  
Get it, I got it on the run and I'll sell it with you.  
Get it, I got it on the run and I'll sell it with you.  
One more taste is all it takes then you bled me gone.  
Get it, I got it on the run and I'll sell it with you.  
Get it, I got it on the run and I'll sell it with you.  
Get it, I got it on the run and I'll sell it with you.  
Get it, I got it on the run and I'll sell it with you.
