I keep waiting to see who's gonna say the things I need
to know

I keep waiting to see who's gonna say the things I need
to know

I keep waiting to see who's gonna say the things am I
alone

I keep waiting to see who's gonna say the things am I
alone

You take them on, on your own

You take them on, on your own

You take them on, on your own

You take them on, on your own

You take them on, on your own

You take them on, on your own

You take them on, on your own

You take them on, on your own
