I took out a loan on my empty heart, babe
I took out a loan for my patient soul
And I feel alive as long as I don't need you
And I feel alive as long as I keep hold

I took out a loan on my empty heart, babe
I took out a loan for my patient soul
And I feel alive as long as I don't need you
And I feel alive as long as I keep hold
Of what I think I thought I heard you loved me
I think you thought you heard I loved

Have I been mistaken

Have I been mistaken
I feel confused about the way it's done

I won't be denied
I'm coming in this time, babe
I've fallen in love with your creatures soul
And I've been a witness to your sickest obsession
And I feel alive as long as I keep hold
Of what I think I thought I heard you loved me
I think you thought you heard I loved

Have I been mistaken have I been mistaken
I feel confused about the way it's done
