

Baby Monster "Curses"

Visit "[Curses](#)" on MotoLyrics.com

She's in my head living like a ghost girl back from dead
There is a way to become the kids of yesterday
Don't stop turning till we find our way
I'm holding on today
Every little thing that you wanted is weighing on me
now
It's weighing on me now
Curses are free found on every corner of every street
She is always there hiding in the stars of empty air,
Empty air
Don't stop turning till we find our way,
I'm holding on today
Every little thing that you wanted
Curses in me every bone
Every little thing that you wanted is weighing on me
now;
It's weighing on me now
(Curses fall 6x)
Don't stop turning till we find our way,
I'm holding on today
Every little thing that you wanted
Curses in me every bone
Every little thing that you wanted is weighing on me
now
This is not the end that I wanted
It's weighing on me now;
It's weighing on me now
