Religious right exploding lights Gaza Strip it's in my  
sights  
Israelites and Pakistan in a 10, 000 year long fight  
Cops coming down my street tonight  
Watching waiting like an army fleet  
Waiting to take it all away from me  
Your inspiration tickles the cold hearted blue  
Your ignorance takes what used to be true.  
All I know is that when I go everything's gonna be  
alright  
So set me free and let me go and everything's gonna  
be just fine.  
Let the little man fight for your big plan  
Big man's money you fight with a gun in your hand  
For you it's always been the red white and blue  
And it's a misguided Afghanistan refuge
