Had a good plan - a very good plan
You took the bike, I'm in a band
Took a coin and flipped it around
I'm on a plane to Amsterdam

Boogie, boogie my life away
Boogie woogie living and loving every night and day

Had an address - it was cool
Smoking and drinking and playing pool
Then in the night I met with the man
Head of the Nosferatu klan

Boogie, boogie my life away
Boogie woogie living and loving every night and day

Back on the plane to my mothers land
Stepped across the customs line
Heard a voice - So I had to turn 'round
Open your suitcase here - be kind

Boogie, boogie my life away
Boogie woogie living and loving every night and day

They found the first kilo of Columbian gold
They didn't find the two kilos I just sold
Then they some shit from Afghanistan
And the some supreme black Pakistan

Boogie, boogie my life away
Boogie woogie living and loving 'til I break away

Boogie, boogie my life away
Boogie woogie living and loving every night and day
