I don't wanna leave you baby, don't say no
Take my hand and she'd your tears away
If you don't remember let me understand
Is the only thing I've left unsaid

Can't you see the brightness
Babe can't you see the light
It's the only thing that's left unsaid

I don't wanna leave you baby, don't say so
Take my hand and she'd your tears away
No, I can't remember when you said you loved me
Give me one more chance to keep you by my side
No, I never leave your eyes without an answer
Give me one more chance to keep you satisfied
Let me try

Say you wanna leave me baby, don't say so
Take my hand and she'd your tears away
If you can't remember I will understand
Say the only thing that's left unsaid

Can't you see the brightness
Baby, can't you see the light
It's the only thing I've left unsaid

I don't wanna leave you baby, don't say so
Take my hand and she'd your tears away
No, I can't remember when you said you loved me
Give me one more chance to keep you by my side
Oh, I never leave your eyes without an answer
Give me one more chance to keep you satisfied
