We are madly in love with you  
We are madly in love with you  
We are madly in love with you  
We are madly in love with you

And what we do in here  
will fill the streets out there  
let us dance for you  
we wanna dance for you  
and what we do in here  
will fill the streets out there  
let us dance for you  
we wanna dance for you

We are madly in love with you  
We are madly in love with you  
We are madly in love with you  
We are madly in love with you

And all of my life and nothing less i give to you my  
righteousness  
And all of my life and nothing less i give to you my  
righteousness

We are madly in love with you  
We are madly in love with you  
We are madly in love with you  
We are madly in love with you
