

Bangbang "Happy"

Visit "[Happy](#)" on MotoLyrics.com

What is it?
What is it what makes you happy?
Me saying I'm sorry and I'll try harder
The way I have of upping and awaying of being there
I look like I hear when you talk to me
And you don't doubt that I'm thinking about
What to do about it

I'll fight anybody
For as long as it takes
To make the underdog happy
A percentage of the time
That's me
It's because when I pump you up
You feel like you from God
From a reason

I get happy about summer before the season
See reason just in time
I'm fine when everyone isn't
Decent at the last minute
Some times more
I'm loyal as a door

I got people happy I'm alive, I got people happy
I got people happy I'm alive, so, so am I

If you're nice to me
I'll kick the killer out for you - I will
I'll cry if you don't like me
Because of me
I hate that reflex that wrecks a good thing

I'm contradictory
I like punching fixed faces
I need to see real and you sharing that
We the same
Share yourself
You've got nothing better
Life is terrible
Living with snoopers of your mind game
We all equal

Is it because of my fairness

I like to see happy endings
I don't break, I keep bending
Enough life left
I see the plusses
I'm rooted well
My folks look after themselves
And me

I got people happy I'm alive, so, so am I

They looked after themselves
And thought about me
I'm reacting to the spell of that self belief
To the back of my teeth
I'll hold onto that
Everybody loves the love in my eyes
They hate the rage in my eyes, when I ain't laughing

I'm a romantic
Everything about me beats for it
So that I can be happy
Here and there can be
I need nice flash backs
That makes me smile nice
And that's why I think you like me
And that's what gives me faith you'll like me
And that's why I start rhyming

I want to keep it all nice as possible
I value you
You showing me
I'm lovable adoring to you
You make me beautiful
I'm thankful
