"Temples transformed into tombs  
Are cast down over ashes" (-Eliphas Levi)  
No more escape to the rotten past of Christian idolatry  
Future will be the ancient days reborn in understanding  
From the fertile ashes of Armageddon  
Under the reign of brilliant star of the Master  
Under the morbid wings of Sathanas

"Christianity was never sincere" (-Eliphas Levi)  
Hark! So many streams of pagan blood  
Hark! So many screams of the tortured  
From the chambers of inquisition  
From the dungeons of the Christian bastards  
"Hate in the name of true awakening of nature  
Hate the Creator in the name of supreme primal  
Darkness"

There is only one true God, the Truth itself  
The majesty of night and kingly mountain scapes  
The Spirit cloaked wll under the form of the black goat  
Under the Pan-Theos of a new Serpent Christ  
"Under the morbid wings of Sathanas  
Wings of master Sathanas"

Chorus:  
There will be no light left  
For the new dawn will be black  
Hail great flames encrowning our lord Lucifer  
Hail the master enthroned on world cube  
Hail the glory of the spread wings  
The morbid wings of Sathanas over us
