When you come back down to this southern town
I'll be right here waiting for you
Cause when you went away
It was safe to say
You took apart of me with you
And ever since that day I haven't felt the
same
My heart is torn in two

Cause I have felt alone before
But never quite like this
Yeah I have felt alone before
But never quiet like this
Step one- We fall in love
Step two- You break my heart
Step three- You spread your wings and fly away(2x)

Three months went by so fast
I thought I wouldn't last
Waiting another minute alone
But now that you are here
I've developed the fear of getting into deep
again
I swear I'm on the edge and I
can't handle it
I need you more than ever

Cause I have felt alone before
But never quiet like this
Yeah I have felt alone before
But never quiet like this

Step one- We fall in love
Step two- You break my heart
Step three- You spread your wings and fly away(2x)

Please don't leave me
I need you why can't you see you need me
too

Please don't leave me
I need you why can't you see you need me

too

Step one- We fall in love

Step two- You break my heart

Step three- You spread your wings and fly away
