Sideways and upside down
Findin' ways to be a clown
And when the circus leaves
I'll stay.

I want to be important to you and your whole crew,
And when their laughing at me I'll become a part of
you, and it's...

Sideways and upside down.
Findin' ways to be a clown,
And when the circus leaves I'll stay.

Woman, ooo...

You see my work ain't over.
I got a job to do.
I want to be your rover.
Don't you want to be mine too?

Sideways and upside down.
Findin' ways to be a clown,
And when the circus leaves
I'll stay.

There ain't enough time in the day to show you all my
thoughts.
I have to jump through so many hoops
To get from A to Z
To tame the lions in me.

Ooo, lovin' you's sweeter than cotton candy.

Sideways and upside down.
Findin' ways to be a clown,
And when the circus leaves
I'll stay.

I'll stay.
