7 days I was kind of frustrated
7 boring days I have waited
Tonight we party till the end
I raise my glass to you my friend
Mirror mirror on the wall
Who's most crazy of us all
No matter what we do tonight
You're not alone, gonna party right

What shall we drink now,
Together all for one
What shall we drink now
Raise your glass
We slaved all week but now we play
What shall we drink now,
Together all for one
What shall we drink now
Raise your glass

Nanananana

In the discotheque I am starting to rock
When I see you I take your hand
Stress and work and all my sorrows
Are delayed until tomorrow
And if you say that you are sure
That your love is real and pure
I feel so happy and I shout
Lust and love, I let them out

What shall we drink now,
Together all for one
What shall we drink now
Raise your glass
We slaved all week but now we play
What shall we drink now,
Together all for one
What shall we drink now
Raise your glass

Nanananana

Gotta take one more drink
Gotta take one more drink
Cause tonight we party we party right
Cause tonight we party we party right
