As the lily slowly withers  
Gathering ants make their move  
Your faceless venom  
Mixes with this tainted blood

There is not much left to do  
I'll have to lacerate these ties  
I hope you're happy  
Observed through the ant's eyes

Hold on  
For the cruelties of this world  
Honey, they will try to suffocate you  
When you least expect it

Fallen petals form a pattern  
The disgrace of being weak

I will pluck this lily by it's roots

Fallen petals form a pattern  
The disgrace of being weak  
Was caused by you  
I will pluck this lily by it's roots

DEATH SORROW  
FILTHY LILY
