"Western Isles"

Visit "[Western Isles](#)" on MotoLyrics.com

Live in Western isles
Learn to love the wind
As it forces you to bend
Love those western smiles
And the time is gotta run
When you feel your day is done
Cultivate those hours
The spray gets in your hair
Love that bracing air
As the cloud above you towers
And the time is gotta run
When you feel your day is done

Hide those spies away
They're talking too
The other side today
They're comin' thru.
Dancin' on the shore
Runnin' thru the stones
Love these island homes
And the warmth behind the door
And the time is gotta run
When you feel your day is done.
