You have murdered our brave Liam and Rory  
You butchered young Richard and Joe  
Your hands with their blood are still gory  
Fulfilling the work of the foe

Chorus:

Take it down from the mast Irish traitors  
It's the flag we Republicans claim  
It can never belong to Free-Staters  
For you've brought on it nothing but shame

Then leave it to those who are willing  
To uphold it in war and in peace  
To the men who intend to do killing  
Until England's tyranny cease

Chorus

But we stand with Enright and Larkin  
By Daly and Sullivan bold  
And we'll break down the English connections  
And we'll win back the nation you sold

Chorus

You sold out the six counties for your freedom  
Though we gave you McCracken and Tone  
And brave Ulstermen have fought for you in Dublin  
Now you watch as we fight on alone

Chorus

And up in Ulster we're fighting on for freedom  
For our people they yearn to be free  
You executed those men who fought for us  
With a handgun from over the sea

Chorus

Chorus
