

## Battery 9 "Parasites"

I'll reduce you to a fly and pull out your wings  
You saturate my mind with such ugly things  
I stoop to rung zero of your insect existence  
If you had to use your fucking mind you wouldn't go the  
distance

Parasites  
Oxygen thieves

You just paint by numbers

You waste my money, you waste my time  
You contaminate my brain with alien slime  
Now I have to lock myself up 'cause you're sniffing at  
the gate  
The nightmare continues while I re-invent my fate

Parasites  
Oxygen thieves
