On a high and peaceful mountain  
Or a crowded avenue  
Anyplace is Heaven  
Just as long as I'm with you

Stranded on a distant island  
In a penthouse with a view  
Anyplace is Heaven  
Just as long as I'm with you

You make bright even brighter  
Darling, with your smile  
You make light even lighter  
You make my life worthwhile

In a shabby little cabin  
Or a castle white and new  
Anyplace is Heaven  
Just as long as I'm with you

In a shabby little cabin  
Or a castle white and new  
Anyplace is Heaven  
Just as long as I'm with you
