There's been an accident, oh no
Bring some oxygen
Bring some oxygen to save our lives
He'll be the saviour of our world
(A head the size of earth)
He'll be the saviour of our world
(Yeah yeah yeah)
Bring some oxygen
Bring some oxygen to
Breathe, breathe
(La la la)
Hey Charlie, hey Chuck
We're floating seven hundred miles
(To take us to the moon)
We're floating seven hundred miles
(Yeah yeah yeah)

Bring some oxygen... to save our lives
And now the atlas boy is king
(Eclipse the new moon towns)
And now the atlas boy is king
(Yeah yeah yeah)
Bring some oxygen...
Breathe, breathe
Hey Charlie, hey Chuck
To anyone
Any wonder, how his head could get so big
And if Peppermint Paddy was a boy
(Yeah)
You've got to
Breathe, breathe
Hey Charlie, hey Chuck
