Itsuko got married in the spring  
So did you see that new band that she's in?  
I swear to god  
I swear to god  
I swear to god like nothing that you've heard of

Ryan got sent home from his commune because the  
Kibbutz found his hands too big  
To operate machinery  
And watches come in one designer size  
Smallest

Ely hates the sound of all the ants that  
Roland keeps in jars beside the bed  
And if they crack would they eat us  
As swifty and as soundly as we slept  
Oh, God, please?

Tiny nanobots will try to fix your broken heart

Jacob's paranormal tendencies are duly noted by his  
enemies

And Katie knows he reads her mind And this extends  
beyond the carnival  
Hooplah

Older only by two minutes more we find Clive's evil twin  
is beating him  
So why did all the muscle genes determine to get busy  
in one egg  
It's unfair

Shula met a TV entertainer and she sends him  
packages of love  
Authorities now intercept, they recognise the writing in  
her fevered hand  
Oh!

Scientists will find a way to make you smile again  
0010010101110001010110110100001101110010

Oh what can I say, what can I say to help you through  
this?...
