Gathered warlords of Hell
The pentagram's fulfilment
Begin the cast of the spell
To lay the curse upon them

Apocalypse glance

So demons possess humanity
Visions of the end are drawing near
Stigmas and dogmas are bleeding black
The infernal rise, congregation of the dark

The horizon brought the night
The pagan moon conspired
Hatred born against the light
To the appearance of fire

Apocalypse scent

So demons possess humanity
Visions of the end are drawing near
Stigmas and dogmas are bleeding black
The infernal rise, congregation of the dark

Decades filled with terror
A darkest sight, the new blazing era
Holiness petrified
