I see you buried deep  
The more I try to get close  
The further away you slip

I used to think that I knew you  
But now I don't know anymore  
What's real what's true or not

Tell me the truth  
Or maybe I don't wanna hear  
I honestly don't think  
I can bare it  
Can not take it in

All that darkness  
This mistake  
Don't wanna keep it in  
Sometimes the truth can hurt

What were you thinking  
What went through your head  
When I was  
Naked in the palm of your hand  
You held my heart  
And never felt the power  
But I did
