Feat. Emma Lock

I close my eyes and hope to wonder
That all I feel inside my heart is true
In my head all I hear is the loudest thunder
As I make my way through the howling rain to you

Chorus:

Not we've not quite out of the words yet
No we're not quite out, yet
No we're not quite out of the woods yet
No we're not quite out
Out, out of the woods

Words white lines are there to blind me
Sometimes I close my eyes to see
To feel this sensation surround me
You know it's only a touch away baby

Chorus:

Not we've not quite out of the words yet
No we're not quite out, yet
No we're not quite out of the woods yet
No we're not quite out
Out, out of the woods

Take my word for this
We are in entangled now
Take my word for this
We're not out
Out of the woods

We're not out
Out of the woods
Out out not out
Out of woods
Not out
Not out of the woods

Thanks to greta
