The distance between us has gotten so cold
What's best left unsaid was once said in my head
And the words that you said and then...i believe again
ADD and OCD and every letter in between and every
single step i take
I'm dying
Hoping you could find the time to help me
Get my life in mind with every single move you make
I can breathe again

Standing out your window screaming, hoping you can
hear my voice tonight
Scream until my lungs collapse so i can finally know
what it's all about
This can't happen again, sorry but i'm tired of waiting
This can't happen again, sorry but i'm tired of waiting

How desperate the truth is you could never know
Turns in the bed you slept, secrets and lies you kept,
you'd turn your back except
You believe again
ADD and OCD and every letter in between and every
single step i take
I'm dying
Hoping you could find the time to help me
Get my life in mind with every single move you make
I can breathe again
