She pulls me over she's been thinking  
Her body weakens my heart's sinking  
I look into her eyes, looking for a sign.  
I'm sick and tired of how it feels,  
To fall again, head over heels  
Would you go far, for a wannabe rockstar?

Chorus

Stranger to this danger  
A love bomb waiting to explode  
I'll take down everything that wants a go (Go, Go)  
The summer sun set on what we had left  
But girl your fixing us up  
I'm sky high with the feeling your mine  
But I just gotta know.

Your love is not an action but a thought and attraction  
Leave them all behind, if you'd be so kind  
It's complicated everything's gone now,  
I'm jaded everything's changed somehow  
Your good times and dollar signs  
Crossed the line

Chorus

Your name was my soundtrack  
I'll love you forever but I won't go back  
Waiting for nothing, searching for something  
I felt the chemicals align, the night that you were mine  
Would you go far, for a wanna be rockstar?

Chorus

Stranger to this danger  
A love bomb waiting to explode  
I'll take down everything that wants a go (Go, Go)  
The summer sun set on what we had left  
But girl your fixing us up  
I'm sky high with the feeling your mine  
But I just gotta know.

Waiting for nothing, searching for something

Would you go far, for a wannabe rock star?
