"Electric Girl"

Visit "[Electric Girl](#)" on MotoLyrics.com

Electric girl!
I wanna touch you but it hurts
I wanna feel you girl
And I'm OK to let you rule my world
Electric girl!
The way you shine I'm going blind
Gotta let me love you girl
Standing there with your lights
You blow my mind
GO!

Electric girl electric girl electric girl
She s an electric girl in an electric world
Electric girl in an electric world (x3)
She s got a million volts every piece of her body
Strange things going on better leave her alone
A million volts every piece of her body
You better stay back pass that leave her alone
GO!

Electric a million volts (x4)
