I'm gonna live my life
Like tomorrow will never come

Don't you understand
I don't belong to you or someone else
Got no sense I sure won't miss
Getting even better more and more forever
Sometimes I feel my self alone
And when I think of you
I thank god I can do whatever I want

It's my time now and you gotta listen

I'm gonna live my life
Like tomorrow will never come
And you're gonna suffer all alone

Don't you understand
I don't belong to you or someone else
Got no sense I sure won't miss
Getting even better more and more forever
