"My Woman"

She gotta be someone I can feel
The way she look so fine with the red hi heels
I'm down on my knees won't you love me please
You gotta be my woman
You gotta be my woman

I gotta do something to make her mine
I'm on my way down there cause she look so fine

I'm down on my knees won't you love me please
You gotta be my woman
You gotta be my woman

She acts like a woman
She talks like a woman
She walks like woman
She does like a woman
Gotta be my woman
You gotta be my woman
