Enjoy the ride  
But don't close your eyes.  
You are heading for a big surprise.  
Pay attention, let's get real.  
Them are about to reset  
All of the freedoms that weve ever had  
Your fantasy them out to steel  
Come get your life improved  
Weird sience is on the moove  
Showing things that can't be true  
They don't wanna state the facts  
Already know how the mouse reacts  
This time the test 's gonna be on you  
Or you better

Run  
Run  
For cover  
As them run  
Run  
Our lives

Go for the ultra ultra  
Introduced by the vulture culture  
No way they'll let us go back  
Your vote for democracy  
Became a vote for hypcracy  
Guess they've got us all in check  
Progress's not gonna wait for you  
Try something new  
There'll be no one innocent here

Show us what you've got.  
Give evolution a kick in the butt.  
All systems clear.

Run  
Run  
For cover  
As them run  
Run  
Our lives

If we can make things happen things  
That we've never ever seen  
Then pump the H2O  
And let's get the desert green  
I know you got a whole different plan for sure  
Like crowd control way past 1984  
That's why we got to got to

Run  
Run  
For cover  
As them run  
Run  
Our lives

I know it sounds easy  
You know that it's right  
Crowd control way past 1984  
Will make da the freaks come out at night  
Freaks come out

Run  
Run  
For cover  
As them run  
Run  
Our lives

Run  
Run  
For cover  
As them run  
Run  
Our lives
