Let your hair down

Wear something pretty
Don't you know
How you make us both look good
Call your mamma
Tell her were going out tonight
Were gonna be late
Hell we might not make it back at all

Chorus:

So take me out to the dancehall
Slap my foot down to the rythm
Tell them to play them old songs that we all love
Tell me that you want me
And i'll tell you that i want you to
And i'll kiss your face whenever you want me to

Some people say

Don't you waist your time away
Late night livin let us rendezvous
Take my hand
Take a chance yeah
Close your eyse
Hey the rest is gonna come to you

Chorus

I said forget about tomorrow
I don't care if it comes at all
And if we get a lilttle crazy
We'll blame it on the alcohol

Chorus

Hey baby tell me that you want me
And i'll tell you that i want you to
And i'll kiss your face whenever you want me to
