Can you see the twilight over you  
Can you hear the voice of the truth  
Can you smell the absinth of your soul  
Can you feel the energy flows

Can this be a dream or a nightmare  
Can this be just a state of mind  
Can you show answers  
For all your doubts  
Can you feel the meaning of life  
What'€™ s to find

(Chorus)  
Essence inside out  
Turns into a call  
Brings the destiny shining the ways around  
Years passed by  
Tries hazed so many lies

Time to realize  
If all your acts were right

Use your might, deep insight  
Clear and bright

Time flows, life goes, mind grows  
But only your essence knows

How invite, what'€™ s inside  
To meet the outside

(Chorus)  
Essence inside out  
Turns into a call  
Brings the destiny shining the ways around  
Years passed by  
Tries hazed so many lies  
Time to realize  
If all your acts were right
