

## Before We Forget "Confined Suspension"

Visit "[Confined Suspension](#)" on MotoLyrics.com

What has brought you to this place  
Left to revel in disgrace  
The one that you are longing for  
Is the one that you ignored

Left with nothing but regret  
Suspended in the nothingness

You had your chance  
Your pride chose death

Did you think your life would simply end  
All the times you thought about your sin

You chose not to believe  
Lived your life as you pleased  
Look where its brought you to  
Walls of flame surrounding you

This is it all thats left  
Eternity in this pit

My child you have gone so far away  
Until you come back I cannot say  
The loving words that you long to hear  
A childlike whisper in your ear
