Hey here it comes I'm gonna do it again
I'll fall away back to where I began
I'll blame it all on my circumstances
As you deny me with your loving glances

It never fails to break me
You didn't have to save me

I trust in you when the walls close in around me
You never fail you've always been there for me
You take away the pain that consumes me
I give it up I give it up to you

Forget about me I won't become
The one you turn to to fill you up
You say you've got it all that you need
Can't live without you come back to me

Stay with me I need you
I won't survive for long without you near
Save me, love me

You won't make it don't you try and fake it
(Bring to me the one I can turn to)
Your broken heart I'll take it
(Save me I can't I don't want to)

I was the one who betrayed him, it was me
My sin up there, this is the last time...

Take me father, my life its yours
