She's moved away  
To a kinder place  
Where her soul flies  
She's smiling down apoun us  
(unintelligable... could be "heart roams the room now")  
Just help us through  
Today your spirit  
It guides us  
Amy can you hear me?  
Upstairs gently listening  
All down here wishing  
You hadn't left so soon  
I want to thank you for  
Leaving me and not me leaving you  
There's somthing strange about  
I can shut my eyes  
And see you there  
I wish i'd said some more words now  
The music is singing  
Amy can you hear me?  
Upstairs gently listening  
All down here wishing  
You hadn't left so soon  
Amy's smile will cure you  
So close your eyes and (unintelligable)  
She's waiting upstairs with Jesus  
Where everyone's your friend
