Oh brother, tell me what she's been into  
Oh my sister, give me one good reason to  
Hey, my darling, why you shun your eyes from  
Oh my God, now I've been blind I can not see

The wide-eyed times, close tight your mind  
And I will guide you and die I would for you  
Darling you know that, just when I found you  
I come crumbling' down and still  
Love lives on through, lives on through you

Waiting for someone, like so many times before  
It's raining in Richmond, every after morning  
And I'm shining down upon the life around me  
And I'm thinking about you, where might you just be

The wide-eyed times, close tight your mind  
And I will guide you and die I would for you  
Darling you know that, just when I found you  
I come crumbling down and still  
Love lives on through lives on through you

No, I won't divide you  
Don't even think that's true  
If you'd just listen you'd hear life calling  
Calling me from you

Oh mother, tell what she's been into and now  
Oh father, give me one good reason to now  
My brother, why you shun your eyes from me  
Oh my God now, I'm still blind I can not see

The wide-eyed times, close tight your mind  
And I will guide you and die I would for you  
Darling you know that, just when I found you  
I come crumbling down and still  
Love lives on through, lives on through you
