

Beloved Enemy **"Finden"**

I can hardly bear that the love we used to share
Is so fxxxing dead
Where we used to be is a lonely fxxxing me
And just nothing else
How am I to live when I'm raping my belief
So don't fxxx with me
How am I to know should I stay or should I go
When my mind went blank

How how
Tell me how to find you

So I will remain in this ocean of my pain

While you're moving on
Where is all my faith
In this wretched song of hate
There is no way out

Wie kann ich dich finden

Wie soll ich dich finden
Wie kann ich dich finden
Where is all my faith
Wie kann ich dich finden
And there is no way out
Wie soll ich dich finden

Tell me how to find you
