Stand up and get ready for what's coming
Stand up breathe in
Check your eyes it's about us
Mother nature don't lie Its about us
Stand up breath in

There's a place in space the captive like to go
And I been sleeping on it way to long
I'm coning home

And if you're tired and waiting for the sun
Raise your hands
To shed a little light on everything you've done
Raise your hands
If you're stuck under a rock and you want to roll
I know where to take you if you want to go
Raise your hands

Now I've been down before and I'll be down again
And I'll be damned if I wont need a true friend
Not the kind that's always got to give advice
The kind with love, I just need someone who's nice to
me
Do you know what its like to be so down that up
Ain't in sight
Now if your with me let me see you stand up and raise
your hands

(Chorus)
I'll carry you, you carry me
I got to be wrong sometimes
Teach me how to be strong sometimes
I'll stand for you, you stand for me
Oh I know that I can count on you
Never let the sun set down on you
I love you

And if you're tired and waiting for the sun
Reach on up and grab it

(Chorus)

I said I know where to take you if you want to go
Raise your hands
Come on I know where to take you if you want to go
Raise your hands
