When I looked you in the eyes you made me realize  
you're like a...  
Baby throwing up  
Well here we are again, it must have been fate to me  
you're like a...  
Fork on a plate

Every minute with you is like... fingernails on a  
chalkboard  
Every moment with you is like... a barking dog... that  
just won't stop  
Barking

I thought of you all day you were always in my mind...  
When I was at the zoo  
I thought of you some more, a bit...  
I was taking a shower

Every minute with you is like... french kissing a dog  
Every moment with you is like... pissing with a dork...  
that just won't stop  
Pissing

Every moment, hey!  
Every moment

For u I would,  
I would climb the highest mountain  
No matter how tall  
I would swim across the water  
Fountain in the mall, I would  
Now you may be wondering why I'm singing this song,  
well  
It's because I think our love is very... weak
