Spinning out, spinning out  
Gravity can't hold me down now  
See the future written in the sky  
The time has stopped, the world is still  
I feel my heartbeat ticking slowly  
I catch my breath and hold on to  
Tonight

This is us,  
I don't ever want the day to break  
This is us,  
We are never gonna fade away

We love like stars  
Oh, starts with a fire  
Brighter and brighter  
We light up the dark  
We love like stars

Close your eyes and stay with me  
Lay with me inside this moment  
I promise you I'd never let you go  
Shining now, shining now  
You and I we shine like diamonds  
A universe only we can know

This is us,  
I don't ever want the day to break  
This is us,  
We are never gonna fade away

We love like stars  
Oh, it starts with a fire  
Brighter and brighter  
We light up the dark  
A million sparks  
Oh, exploding desire  
Higher and higher  
We light up the dark  
We love like stars

Oh, it starts with a fire  
Brighter and brighter  
We light up the dark  
A million sparks

Oh, it starts with a fire  
Brighter and brighter  
We light up the dark  
A million sparks  
Oh, exploding desire  
Higher and higher  
We light up the dark  
We love like stars
