You don't have to show it
Baby we both know it
You've been falling off of me
You've been falling off of me
Such a fucked up feeling
Wish I didn't mean it
You've been falling off of me
You've been falling off of me

Oh haven't you noded
The way you shrug your shoulder off
And all I say and still you flash a smile from everybody
My fool eyes see through it
To where we thought we'll never be
Alone like this so close for me
You stand there beside me
But I still haven't made up my mind
Afraid to answer
So I guess I'll just step in out the lie
Walking slow, running out of time

You don't have to show it
Baby we both know it
You've been falling off of me
You've been falling off of me
Such a fucked up feeling
Wish I didn't mean it
You've been falling off of me
You've been falling off of me

You can be the coldest
The way you walk all over me
So miss that it won't ever be
Like it was when we started
But you were the only who cheated and like
Somebody in the sun that we won't see

Those gates were built too tall for me
A long, long time again
And you're still the only song in my head
So I'm climbing up just trying to top be
All the time I tried to write

You're there waiting in every line

You don't have to show it
Baby we both know it
You've been falling off of me
You've been falling off of me
Such a fucked up feeling
Wish I didn't mean it
You've been falling off of me
You've been falling off of me

Off you, set me, set me
Off you go, off you go
Set me, set me, set me free
Set me free

Now I'm lost underneath these stars
Knowing that I can't make it right
So I stop throwing all my life
Right out the window
Oho, going on and on
You've been falling off
You've been falling off
Said I'm lost underneath these stars standing
And I can't see the light
So I stop carrying these flowers between my fingers
Burnt away while the pain just lingers on
On and on and on
You've been falling off
You've been falling off of me
Off of me
