They say, and you've heard that life's gonna pass you  
by  
And things won't change- you've heard that lie  
But there's a difference in wish and wait

You wish for a thing that you hope might just happen  
You wait for a thing that will come, doesn't matter  
You know that the promise He made isn't that far away  
from you  
So wait for it, wait for it

Now is your day  
Live every moment, no time to waste  
Look to the sky  
And know that Heaven will be by your side  
Real peace of mind  
Is found when you're leaving nothing behind  
So do all you can do  
And then wait for, wait for, wait for it  
You will find, all the time was worth the wait

In a moment's breath, a sudden beat in your chest  
You will feel it  
At morning's light, in the middle of the night  
You will feel

In a word, in a prayer, in a dream you can see it  
So wake up and make it the life that you're living  
You know that the promise He made isn't that far away  
from you  
So wait for it, wait for it, wait for it

Now is your day  
Live every moment, no time to waste  
Look to the sky  
And know that Heaven will be by your side  
Real peace of mind  
Is found when you're leaving nothing behind  
So do all you can do  
And then wait for, wait for, wait for it  
You will find, all the time was worth the wait

But you feel like it's gonna get away  
Take your fear and turn it into faith  
Then you'll see, all along, they were wrong

Now is your day  
Live every moment, no time to waste  
Look to the sky  
And know that Heaven will be by your side  
Real peace of mind  
Is found when you're leaving nothing behind  
So do all you can do  
And then wait for, wait for, wait for it  
You will find, all the time was worth the wait
