I had a dream last night
About when you were mine
The streets rain rain with blood
It makes them do the moud
You were unchaid Burnaid and Spain

A king grew far the wius
Come find you to his room
I was a solder then
I'd realy many man
We stone the castle just
For you

Coming for you all in arm
Nothing is going to stop my sword to swiming throw
Anyone that join me and you
Coming for the girl in the tower
For the one that brings the king down to his jnees
Just make me crazy with her mystical path

Coming for you all in arm
Nothing is going to stop my sword to swiming throw
Anyone that join me and you
Coming for the girl in the tower
For the one that brings the king down to his jnees
Just make me crazy with her mystical path

Coming for you all in arm
Nothing is going to stop my sword to swiming throw
Anyone that join me and you
Coming for the girl in the tower
For the one that brings the king down to his jnees
Just make me crazy with her mystical path
