And when I feel
life's heavy labours calling.
I make my self
light aslight
I think of things
as they come to me
without warning
A train of thoughts passing through on the tracks

CHORUS

Sunshine
we be cruising,
it's in our music
that's where the truth is
cos we have done
that cos we haven't been there
I wanna go there
cos we will run that,
I wanna go for real

See the sun shine
in winter time see snow falling in summer time
it's all crazy like our minds
all this anger makes us blind.
For all these poisons that are mine
I know I can not rewind
as I struggle to be more kind
As the train lies
and I mess around
I'm so young but not without a sound,
been seen double,keeping me down
I fiddle with a thought
But not without a sound

CHORUS

(I wanna feel it,
I wanna be there,
I want you to feel it,
the way that I feel it.
Don't you conceal it,

come on reveal it,
you better kiss me
you better love your self.)

My body and your body
can fuse into one
shadow on the wall.
Your body and my body
produce somebody
a soundbody.
Just look what we conjured
out of nowhere like the notes
that thrill the air

CHORUS

(I wanna feel it,
I wanna be there,
I want you to feel it,
the waythat I feel it.
Don't you conceal it,
come on reveal it,
you better kiss me
you better love your self)
