oh she felt so lonely  
when I parÂ' with my homies  
in the town town town

verse

she was there when I was down  
when I was blue she was around  
I was so lost could not be found  
was just wondering around  
stranded in the town

chorus

verse

why do the good girls love the bad boy them?  
and think they can change them into good guys when  
they feel that love in them  
she says the streets are full of pestilence  
and temptation, Â- I went  
cause I canÂ't stay on her ends

chorus

you ever feel lonely in a crowd?  
and above your head there is this big black cloud  
and only you can figure this out  
itÂ's like findinÂ' food durinÂ' a drought

oh I just canÂ't settle downÂ...
