### INTRO

Me and peeps we be cruising on  
Merkaba Internal keep blusing on  
Shashamani will never be cooling down  
we're moving on

### 1ST VERSE

assume in different ways  
that what we feel today  
when we see the children play  
they are not afraid  
of anything  
they know something  
are you feeling what I say  
in my very different way  
I am so afraid  
Oh yeah  
Today  
Of everything

### CHORUS

Where do we go wrong  
Let me tell you something  
I was never reaching  
Just take us to the top  
Where do we go wrong  
They be forever preaching  
Never see them laughing  
Again  
But we never stop

### 2ND VERSE

I have an axe to grind  
Our world is in a bind  
The dollars make us blind  
All the time  
Oh my  
To everything  
And another thing  
don't tell me that is this  
don't tell me this is that  
I know just where you're at

Just relax  
That's just not my thing  
Oh give me peace  
'coz Jah has release

#### CHORUS

Where do we go wrong  
Let me tell you something  
I was never reaching  
Just take us to the top  
Where do we go wrong  
They be forever preaching  
Never see them laughing  
Again  
But we will never stop  
Where do we go wrong  
Let me tell you something  
I was never reaching  
Just take us to the top

#### BRIDGE

Battered and beleaguered  
Was the case  
As we were firmly  
Put in our place self deprecating  
What a waste it was never ending  
So hard they chased

#### RAP

It's all about the energy  
You're sending me  
When a penni  
You ah penni me  
So you're telling me  
That that food  
That you're selling  
Me is so  
But I'm telling you  
It's killing me

#### CHORUS

Where do we go wrong  
Let me tell you something  
I was never reaching  
Just take us to the top  
Where do we go wrong  
They be forever preaching  
Never see them laughing  
Again
